Work Authorization: Lebanon, Qatar
Languages: Arabic (native), English (proficient)

Professional Summary

Strategic ERP architect specializing in implementations, system analysis, and UI/UX design. Proficient in fit-gap analysis, UML modeling, front-end prototyping, and backend development. Adept at crafting BRDs/SRSs, overseeing UAT, and training stakeholders to deliver user-centric, scalable solutions on time.

Experience

Cloud Resources LLC — *Doha, Qata*   *November 2024 – Present*

Software Practice Lead

- Led requirements workshops and translated business processes into concise system design specs.

- Architected scalable data models, UML diagrams, and process flows for system modules.

- Defined and validated integration patterns (Zoho, Salesforce, Oracle, Shopify) with clear API and error-handling specs.

- Directed POCs and design reviews to ensure performance, security, and scalability before handoff.

- Produced SRS documents, API guides, and configuration manuals; partnered with dev and QA teams to ensure seamless delivery.

Intalio-Everteam — *Naqqache, Beirut, Lebanon*   *December 2022 – August 2024*

Software Engineer

- Translated business needs into system designs and technical specs for custom modules and reports.

- developed scalable solutions using Python, JS (React.js, Astro.js, Next.js…etc), PostgreSQL, HTML/XML, and CSS, SCSS.

- Authored ER diagrams and interface documentation to guide implementation and ensure stakeholder alignment.

- Led design/code reviews and mentored developers on analysis-driven engineering best practices.

Azkatech S.A.L — *Hazmiyeh, Beirut, Lebanon*   *September 2021 – October 2022*

ERP Implementer

- Performed Fit-Gap analysis and requirements gathering to shape system design.

- Designed system module architectures and integration workflows.

- Produced BRD, SRS, change-request forms, UAT scripts, and training materials.

- Delivered technical and functional training; documented new modules and integrations.

- Reported directly to the Team Lead.

Education

Master of Business Administration (MBA), Management Information Systems,   June 2018
Lebanese International University | Saida, Lebanon

Bachelor of Business Administration (BBA), Information Technology Management,   July 2016
Rafik Hariri University | Mechref, Lebanon

Certifications

- Odoo v17 Functional Consultant • Odoo • (Credential ID: 0000409637) Issued May 2024
- Professional Data Analytics • Google • (Credential ID: J6DDJMS3LJNQ) Issued July 2023

Technology Stacks & Competencies

- React.js · Vue.js · Astro.js · Next.js · Backbone.js · jQuery · Angular
- Django (Python)
- PostgreSQL, MySQL, SQLite
- AWS · Azure · Google Cloud Platform · DigitalOcean · Docker · Docker Compose · Kubernetes · Linux
- Git (branching strategies) · GitLab CI · GitHub Actions · JIRA
- RESTful API Web Services & Webhooks · SOAP · JSON/XML mappings
- PyTest
- UML (Visio, draw.io) · Figma · Business Process Modeling · Data & Information Architecture · Prototyping & UI/UX
- Technical Specifications & Documentation · Stakeholder Communication · End-user Training
